The GMO Divide — Let’s All Reward the True Organic Heroes.

Over 60 countries around the world require GMO labeling or ban GMOs outright. But not the U.S.

Democratic and Republican administrations, and Congress, have repeatedly ignored the overwhelming majority of Americans who favor labeling GMO foods in the marketplace. Our politicians seem to be listening to the corporate executives (their donors) instead of the citizenry. In Washington State, the people have a right to craft laws of their choosing at the ballot box. I-522, to be voted on this fall, would mandate labeling of foods containing GMO ingredients. After narrowly losing a similar fight in California (Proposition 37) last year, when corporate agribusiness spent $46 million on misleading advertisements, consumers can vote in the marketplace and stand with the brands that are defending or opposing “the right to know.”
